Home News.

Five bars of bullion worth about \$7,000 came from Globe, Sunday, via Santa Fe & Co.'s Express.
Mrs. J. H. Harrison returned to her home at Pinal, Monday, after spending some weeks with her daughter here.
Sheriff Gabriel returned Thursday from an official visit to Pinal. He was accompanied by his accomplished wife on the trip.

Major Sisson, one of the most prominent mining men of Globe, passed through here Wednesday, returning from the East.
Mr. Rogers has succeeded in recovering all but the tongue and one wheel of the wagon he lost in the Gila last week. We congratulate him.

County Recorder Jno. J. Devine has received a supply of the compiled laws enacted by the last Legislature, for distribution to County officers.

The mail from the East arrived Thursday. It was the first mail we had received in some ten days.

Postmaster G. A. Allen, who presides at the post office, has a most interesting story to tell of a mail bag that was lost in the desert.

Mr. W. L. Bailey, of Pinal, was in Florence, Sunday, after having been in the hospital for some time.

Mr. Alex. Goodfellow, of Pinal, was in Florence, Sunday, after having been in the hospital for some time.

Mr. W. L. Bailey, of Pinal, was in Florence, Sunday, after having been in the hospital for some time.

Mr. Alex. Goodfellow, of Pinal, was in Florence, Sunday, after having been in the hospital for some time.

We were pleased to meet in Florence this week, that agreeable gentleman, Ralph Palmer, of the Sacaton Agency. He came hither to prosecute the Pima Indian arrested by the Sheriff on a charge of rape.

The Military Telegraph lines from the place to Tucson and from Fort Lowell to Point of Mountains, were abandoned on the 30th. Florence still remains a telegraphic station and the telegraph lines between here and Maricopa will be maintained.

The Silver King Mining Company paid their regular monthly dividend for the month of June on the 15th. It was a dividend of twenty-five cents a share, aggregating \$25,000. The total dividends to date foot up to \$700,000, in round numbers.

Mr. Wm. Dempsey, of the firm of Austin & Dempsey, Montezuma, was in town Tuesday, and said that business in his neighborhood had been brought to a temporary stand still by the high water preventing farmers from bringing their grains across the river.

Mr. J. V. Wilson and wife started for Sonora, Mexico, Wednesday. They will spend some time in traveling over Sonora in quest of a location suited to their tastes, and should they find such a place they will probably remain there for the present. We wish them a pleasant and successful journey.

Mr. John D. Shillit, who came down from Mineral Hill, Tuesday, said that he had some good news to tell. He said that he had found a very rich vein of silver in the mountains near the town of Pinal.

Just as we were closing up the forms to go to press, Johnny Miller, of the Mineral Creek Mining company, dropped in at our door like a well-oiled machine. The company's new mill, which was set up on Wednesday and worked perfectly, Johnny came down after the quicksilver, etc. He says the new mill is doing approaching work as fast as the old one.

We were made the recipients of a very enjoyable call, Friday, from Mr. J. H. Harrison, with an eye to business, built a flat boat during the earlier part of the week and launched it on the turbulent waters of the Colorado river.

One of our enterprising Mexican citizens, with an eye to business, built a flat boat during the earlier part of the week and launched it on the turbulent waters of the Colorado river.

Mr. J. H. Harrison, with an eye to business, built a flat boat during the earlier part of the week and launched it on the turbulent waters of the Colorado river.

Mr. J. H. Harrison, with an eye to business, built a flat boat during the earlier part of the week and launched it on the turbulent waters of the Colorado river.

Our friend Lieut. Wm. H. Hutton was in town this week and informed us that he had bought out his partners in the Gold and Silver mine, located ten miles southwest of Pinal City, and is working night and day in developing the same. The vein, carrying good ore, has widened out three feet and continues to widen as depth is attained. He has several other mines showing very rich gold and silver ore. Lieut. Hutton is an old California prospector and knows when he strikes a good thing. We wish him good luck in all his mining enterprises.

Mr. H. B. Montgomery has received a letter from Mr. Miller of the Castle Dome Mining and Smelting Company, stating that the two sacks of ore shipped him from the Pinal mine, a mineral Hill were thoroughly tested and showed an average of \$99 in silver to the ton and fifty per cent. of lead. It is so well known that the ore of Mineral Hill will pay for itself at once and beside will pay for the cost of the camp he can get hold of. Three cheers and a tiger for Mineral Hill!

Mr. Bill D'Armitt returned Monday from the Calabi District, and says the recent rains have made that section blossom as the rose. The valleys are covered with luxuriant grass and flowers, and very little ravine and canyon is filled with water. Brown, of this place, owns some of the mines in that district, among them the famous Pichacho mine, first worked in '61. We expect to hear an authentic history of this noted district in our next issue.

One of our enterprising Mexican citizens, with an eye to business, built a flat boat during the earlier part of the week and launched it on the turbulent waters of the Colorado river.

Through the kindness and courtesy of Mr. L. W. Bailey, we made the acquaintance, Wednesday, of Mr. Alex. Goodfellow, a man whom we gained the following intelligence:
This excellent property is located about fifteen miles northwest of Pinal in the Rodgers District and is owned by Messrs. Goodfellow, Snapp, Stone and Torvela. The main shaft is down eighteen feet, uncovering a high grade chloride vein, averaging from eighteen inches to two feet in width. A contract to sink the shaft another twenty feet has been let and the work commenced Tuesday. The shaft will follow the vein, as these gentlemen do not believe in doing dead work, and when the contract is completed there will be something to show for the labor and the money expended. Located on the same lead and adjoining the Snapp mine is

THE CHLORIDE KING, a very promising property owned by Messrs. Pickering and Benson, of Pinal. The main shaft is down twenty-five feet on the vein and makes a splendid showing of rich chlorides. The country surrounding these claims is well watered and timbered and there will never be a scarcity of either of these indispensable articles. And furthermore the water is as pure and wholesome as it is abundant, while the timber will make good lumber as well as fuel. Another thing in favor of these properties is the fact that the Mormons are building a wagon road from their settlement of Salt River to Globe City, and said road will pass within a mile or more and a half of the mines thus affording the owners a good outlet from the mines without burdening them with the expense of building it. Mr. Goodfellow is also interested with Chas. Rapp, at Florence, in the

SILVER KING, a fine prospect located in the Mineral Hill District. It has a 25-foot shaft passing down through an eight-foot vein of high grade milling ore. This property will prove a bonanza to its owners when Mineral Hill takes on the boom which the growing interest and development in that camp is sure to produce at an early day. Mr. G. is also interested in the

DOLLY VARDEN, in the same district. The development on this claim has not progressed beyond the first assessment work, but the surface croppings are very prominent, showing a ledge from twenty to thirty feet in width and the shaft shows up a strong vein of good mineral.

Mineral Hill Mining Camp.
SILVER POINT.
This claim has a ledge ten and a half feet between the walls where the shaft starts in. The shaft is down fifty feet penetrating a fine body of gray carbonate smelter ore running from \$13 to \$98 in silver to the ton and forty-two per cent. of lead. This property is owned by Messrs. Moran, Henry, and five other parties living in Los Angeles, and whose names we could not obtain. It will undoubtedly prove valuable with development.

THE GRAND PRIZE
is another good claim, on the Time Keeper ledge, with a vein ten or twelve feet in width. It has a sixty foot shaft with a large amount of good smelter ore on the dump all of which runs well. Messrs. Montgomery and Shaffel are the owners and will bring the property out as soon as they can make arrangements to develop it.

The Leroy.
Mr. Tucker, of the Leroy mine, was in town Thursday, and was feeling jubilant over the appearance of the mineral in the Leroy mine. They have struck the ledge in the tunnel and penetrated it to a depth of fourteen feet, opening a magnificent ore body, which is thought to be at least forty feet in width. Every shot in the tunnel uncovers a better grade of ore and there is every indication that the center of the ledge will show up very rich. We congratulate the owners upon the promise of this mine, for they have clung to it, expended their money and muscle on it in the face of discouragements and fully deserve the rich reward it now offers.

Our farmers are taking advantage of the opportunity offered by the recent heavy rains to raise another crop before "winter frost and chill" set in. Col. Brady has planted corn and a great many have planted beans and other garden crops. There is ample time for both corn and vegetables to mature before frost. What would eastern farmers think about planting crops in August? It is nothing unusual in this favored section, and we say now as we have said before, let the husbandmen of the States dispose of their high-priced and exhausted lands and come to the Gila valley, where they can buy farms cheap and raise two bountiful crops a year with half the labor and expense; where they can raise every variety of fruit native to the colder and warmer climates; where they can travel in the winter without burrowing through ten-foot snow banks; where they can work in the harvest field in the summer without danger of sun-stroke; where they can sell what they raise at a profit and buy what they need at a reasonable price; where they can enjoy good health; in brief, where they can live, prosper, multiply and be happy without asking odds of any one.

Mr. Charles Weiser, on his return trip from Pinal, Sunday, came near finding "a home in the rolling deep." He was riding one horse and leading another and when he entered the river the horse he was riding went down in the quick sand and toppled over backward, falling on top of his rider. Charlie scrambled to the surface of the water and the lead horse plunged against him sending him under again. He came to the surface and "paddled the shore" leaving the horses to "paddle their own canoe." His clothes, heavy boots and six shooter weighted him down so that it took all the strength he could command to reach terra firma, but he finally gained the goal. One of the horses swam across the river, and the other went down till he anchored beneath some willows with just his nose above the water. He was helped ashore after some trouble and the inventory of damage showed a hat to be the only loss.

Hinson Thomas came in from Riverside yesterday. His sojourn in the country has greatly benefited him in point of health, and Mrs. Thomas, he says, is growing stronger and heavier every day.

Mr. W. L. Bailey, of Pinal, was in Florence, Sunday, after having been in the hospital for some time.

C. M. GILMORE, CASHIER.
CAPITAL STOCK, \$50,000.

This Bank will open on Monday, May 23d, 1881, doing a general banking business, receive deposits, draw drafts on San Francisco, Cal. and Eastern Cities, buy and sell Stocks, Bullion, Etc., Etc.

Until the completion of the bank building, the business of this Bank will be conducted in the office of the Silver King Mining Company, at Pinal.

San Francisco Correspondent, The Anglo-California Bank, Limited.

DR. SPINNEY
NO. 11 KEARNY STREET.
Treats all Chronic and Special Diseases.
YOUNG MEN

Who may be suffering from the effects of youthful follies or indiscretions, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. Dr. Spinney will guarantee to forfeit \$500 for every case of Seminal Weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN.
There are many at the age of thirty to sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smearing, causing irritation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposit aropy sediment will often be found, and sometimes small particles of albumen will appear, or the color will be of a thin milky hue again changing to a dark and turbid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

Office Hours—10 to 4 and 6 to 8. Sunday from 10 to 11 a. m. Consultations free. Thorough examination and advice \$5.
